

# Penguins

 Penguins  eat  fish  and  shellfish.

 Penguins  can  live  on  the land  and  hunt  in  water.

 Penguins  use  their  wings  like  flippers  to  help  them

 swim  in  the water.

 Penguins  are  black  and  white.

 Some  penguins  have  a  nest  for  their  eggs  and  others

 incubate  their  eggs  on  their  feet.
