

Money

Pupils are encouraged to experience, explore and learn about money from KS1 to KS4. As a school we believe that learning about money is a valuable life skill for our pupils to help with their independence during their school life and beyond. Money work is part of our Maths theme curriculum in KS1 – KS3 and becomes a priority within the KS4 maths curriculum. Money is taught through IEPs, maths lessons, food technology and daily living skills such as paying for lunch in the restaurant. Money is taught in a multisensory way through the school to ensure that all of the pupils educational needs and learning styles are met.

Money Key Vocabulary:

Pounds, Pence, 1p, 2p, 5p, 10p, 20p, 50p, £1, £10, £20, some, more, lots, change, pay, silver, copper, cheap, expensive.
